Study Credits

Application has been made to the Canadian Council of Continuing Education in Pharmacy (CCCEP) for accreditation. Course number 1180-2014-959-C-P.

This program meets the accreditation criteria of The College of Family Physicians of Canada and has been accredited by University of Calgary Continuing Medical Education and Professional Development for up to 3.5 MAINPRO-M1 credits. Members of the American Academy of Family Physicians are eligible to receive up to 3.5 prescribed credit hours for attendance at this event due to a reciprocal agreement with the College of Family Physicians of Canada.

This event is an Accredited Group Learning Activity (Section1) as defined by the Maintenance of Certification program of The Royal College of Physicians and Surgeons of Canada and approved by University of Calgary Continuing Medical Education and Professional Development. Participants can claim up to a maximum of 3.5 study credits.

Through an agreement between the Royal College of Physicians and Surgeons of Canada and the American Medical Association, physicians may convert Royal College MOC credits to AMA PRA Category 1 Credits™. Information on the process to convert Royal College MOC credit to AMA credit can be found at www.amaassn.org/go/internationalcme.

COURSE OBJECTIVES

Family Physicians, Pharmacists and Nurse Practitioners will:

- Identify new medications and new indications for “old” products
- Examine current therapeutic controversies
- Compare drug and non drug approaches for selected clinical conditions
- Discuss the types of evidence used to support the prescribing of one drug instead of another in the same class of drugs
